

SECURE LOCKERS FOR INTELLIGENT KEY MANAGEMENT

 **iLockerz**

INTELLIGENT LOCKER SYSTEMS

iLockerz provide organisations with an affordable solution for managing keys amongst staff and customers in a variety of environments.

By implementing an automated KeyLockerz system, a drop-off and collection service can be adopted to offer customers a 24/7 contactless service,

Drastically reducing waiting and customer dwell times, KeyLockerz systems also minimise service department overheads, effectively increasing profitability.
